Questo catalogo sottopone alla vostra attenzione la collezione basic di adattatori OLMARK

Il presente format raccoglie le serie:

OLMARK **"RQ"** (adattatori di congiunzione serie tornita)

OLMARK **"RA"** (adattatori di congiunzione serie forgiati e assemblati)

OLMARK **"RJ"** (adattatori di congiunzione JIC con tenuta a 74°)

OLMARK **"RF"** (adattatori di congiunzione serie ORFS a tenuta, frontale con O-ring)

OLMARK **"RG"** (adattatori di congiunzione JIS con tenuta a 60°)

OLMARK **"ZN"** (adattatori di congiunzione con tenuta ad anello a 24°)

La gamma è ulteriormente ampliabile, per quanto riguarda disegni e materiali, sulla base delle specifiche richieste dei Clienti.

Per predisposizione applicativa, i pezzi rappresentati in questo catalogo si propongono come una più che completa gamma per il mondo della connessione ai tubi ad alta pressione consentendo, grazie a una semplice e rapida consultazione tecnica, l'agevole individuazione dell'articolo più idoneo all'applicazione finale.

L'attenzione al mercato e alle esigenze dei Clienti costituisce in OLEOMARKET una filosofia industriale che praticamente si traduce nella tradizionale meticolosità operativa e nella costante professionalità posta a tutto vantaggio dell'elevato standard qualitativo di prodotto e dei servizi accessori.

Adapters

This catalog submit to your attention the basic collection of adapters OLMARK

The publication gathers the series :

OLMARK **"RQ"** (connection adapters machined series)

OLMARK **"RA"** (connection adapters forged and assembled series)

OLMARK **"RJ"** (connection adapters JIC with 74° seal)

OLMARK **"RF"** (connection adapters series ORFS with O-ring front seal)

OLMARK **"RG"** (JIS connection adapters with 60° seal)

OLMARK **"ZN"** (connection adapters with 24° ring seal)

The range is further expandable, regarding drawings and goods, based on specifics required from Customers.

For its application, the pieces represented in this catalog are proposed as a more than complete range for the world of connection to high-pressure hoses allowing, thanks to a simple and quick technical consultation, the easier identification of the item more suitable to final application.

The attention given to markets and customer needs is an industrial philosophy in OLEOMARKET, that shows its traditional operative meticulousness and its constant professionalism in the heart of the high quality of product and accessory services.

MASCHIO
MALE

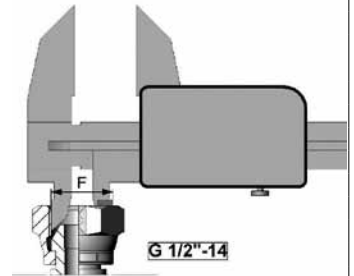

Misurare il diametro della filettatura esterna (M).

Confrontare il valore rilevato in mm. con i valori riportati nella colonna a lato per determinare la corretta filettatura.

Measure the outer thread diameter (M).

To determine the correct thread match the measurements (mm) to the chart.

FEMMINA
FEMALE

Misurare il diametro della filettatura interna (F).

Confrontare il valore rilevato in mm. con i valori riportati nella colonna a lato per determinare la corretta filettatura.

Measure the inner thread diameter (F).

To determine the correct thread match the measurements (mm) to the chart.

DISTANZA TRA ANGOLI OPPOSTI DELL'ESAGONO

Fitting hex size chart

Sistema di Codifica Adattatori ZN

Tutti i tipi di adattatori della serie **ZN** vengono forniti completi di dado ed anello e trattati superficialmente con zincatura esente da Cr VI

Il codice che contraddistingue i raccordi senza dado e senza anello ha al suo interno il simbolo *

ZN100-15L Cod. Completo / Prefitted union part number / Référence raccord équipé
 ZN100*15L Codice solo corpo / Body union part number / Référence raccord nu

ZN Adapters Coding System

Nuts and cutting rings are included in the whole range of **ZN** series adapters, that are all submitted to a Cr VI free superficial coating.

For any order of fittings without nut and cutting ring please note that the part number must contain the symbol *

Systeme de Codification des Adapteurs ZN

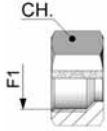

Tous les adaptateurs de la série **ZN** sont fournis complets de bague et écrou de serrage et sont soumis au revêtement superficiel complètement exempt de Cr VI.

La référence des raccords fournis sans bague et écrou de serrage contient le symbol *.

Per qualsiasi dubbio, chiarimento, nuova applicazione, aggiornamento o specifiche tecniche più dettagliate sui prodotti OLMARK, si invita a consultare sempre la Direzione Tecnica OLEOMARKET.

Per i prodotti contemplati nel presente catalogo non è sempre garantita la disponibilità a magazzino. Per le opportune verifiche, in fase di ordine, si invita a consultare la Direzione Commerciale OLEOMARKET.

In considerazione delle particolari applicazioni di alcuni prodotti codificati nel presente catalogo, avvertiamo preventivamente che l'accettazione e/o l'evasione dell'ordine possono essere assoggettate a lotto economico di produzione minimo predefinito.

ASSOLUTAMENTE VIETATA la riproduzione, anche parziale, dei disegni e dei dati contenuti in catalogo.

Tutti i prodotti a marchio OLMARK sono garantiti dal trattamento di zincatura "PLATINUM" (ove previsto trattamento) che bandisce l'utilizzo di metalli pesanti nei trattamenti superficiali (Cr VI) nel pieno rispetto delle normative internazionali.

A richiesta, in aggiunta allo standard PLATINUM, sono disponibili anche i seguenti trattamenti superficiali: PLATINUM-ZN; PLATINUM-NC e NOCTIS (chiedere dettagli e specifiche al comparto tecnico Oleomarket).

Indicative e non impegnative, il presente catalogo riporta solo le caratteristiche principali per l'individuazione del prodotto.

Tutti i dati riportati sono aggiornati al mese di marzo 2019, data di pubblicazione del presente catalogo.

OLEOMARKET allo scopo di migliorare i propri prodotti si riserva di apportare, in qualsiasi momento e senza alcun obbligo di preavviso, tutte le modifiche TECNICHE e DIMENSIONALI necessarie.

NOTE

- 1 Completo di guarnizione NBR (VITON a richiesta)
- 2 Guarnizione O-ring esclusa (fornibile su richiesta)
- 3 Completo di tappo/cappuccio di protezione
- 6 La consegna di questo prodotto può essere vincolata a tempi o a lotti economici di produzione variabili e definibili al momento dell'ordine
- 7 Si consiglia di NON utilizzare per nuove applicazioni
- A I filetti dei raccordi devono essere sempre lubrificati prima del serraggio
- B Nm - coppia id serraggio consigliata per dadi girevoli tipo pressato
- C Work Pressure = pressione massima considerata con Safety Factor max 1:4

For any doubt, clarification, new application, update or more detailed technical specifications on OLMARK products, please always consult the OLEOMARKET Technical Department.

For the products listed in this catalog it is not always guaranteed the stock availability. For the appropriate verifications, during the order step, please consult the OLEOMARKET Sales Department.

Considering the special applications of some products codified in this catalog, we inform in advance that the acceptance and / or the processing of the order may be subject to minimum preset economical production batch quantity.

The copy, even partial, of the drawings and of the contents of this catalogue is strictly forbidden.

All OLMARK branded products are guaranteed by galvanizing treatment "PLATINUM" (Where required treatment) which forbids the use of heavy metals in surface treatments (Cr VI) in full compliance with international regulations.

On request, in addition to the PLATINUM standard, the following surface treatments are also available: PLATINUM-ZN; PLATINUM-NC and NOCTIS (please ask more details and specifications to Oleomarket technical division).

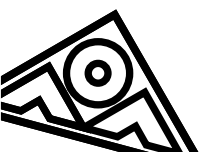

Indicative and not binding, this catalog shows only the main characteristics for the identification of the product.

All the data reported are updated at March 2019, date of the publication of the catalogue.

OLEOMARKET, in order to improve its own production process, reserves the right to make at any time and without prior notice any TECHNICAL and DIMENSIONAL changes necessary.

NOTES

- 1 Complete with NBR seal (VITON on request)
- 2 O-ring seal not included (available on request)
- 3 Protective cap included with the fitting
- 6 The delivery of this product can be linked to variable times or production minimum batches that have to be defined at the order step
- 7 It is recommended NOT to use for new applications
- A The threads of the fittings must always be lubricated before tightening
- B Recommended tightening torque for crimped nuts
- C Work pressure
Considered Maximum pressure with Safety Factor max 1:4
